

Photographs & Videos:

We want to make sure that your wedding is a day that you remember and a day that you can view again. A Catholic wedding ceremony or Mass is primarily a celebration of a couple's love in union with our worship of God as an act of thanksgiving for this love. Therefore, we must make sure that while we catch this moment on film, we keep the primary emphasis in focus. For this reason, the following guidelines must be followed by your photographer. Please provide them with a copy of the form letter to photographers and videographers.

- All photo/video work must be done with the available light. Our electrical system has been updated and is more than adequate. No flood, strobe or spotlights are permitted.
- **No flash photography is allowed during the ceremony.** You may use a flash for the seating of parents, the Processional (entrance of the bridal party and bride), and the Recessional (the bride and groom exiting the Church).
- All photographers and videographers must check in with the Wedding Coordinator prior to the ceremony to receive any specific requirements of the Priest. Photographs and videos may be taken discreetly and unobtrusively during the ceremony. Photographers are not permitted to enter the sanctuary.
- Posed pictures are permitted for 20 minutes only after the ceremony.
- At no time are the decorations already in place in the Church to be moved or rearranged.
